

# Process Praise & Student Behaviors

"Great job listening carefully! That really helped you figure out which words rhyme."

Help your student identify the behaviors that will help them be successful.

"Thanks for keeping your headphones on your ears!"

Praise your student on their effort to stay focused or be in the Ready Position.

Even if they're only doing part of what you ask, show them that you noticed.

"You're working so hard to keep your eyes on the screen! Remember to put your whiteboard off to the side while we're reading."

Balance your feedback so they don't feel like you're only telling them what they're doing wrong.
