General Setup

An important part of creating a supportive learning environment is organizing your physical space.

✔ Appropriate space with minimal noise or distraction.

✔ Have everything you need beside your computer to eliminate movement (pen/paper/equipment).

✔ Camera should be at eye level. Raise your computer with a box.

✔ Your body should be centered in screen with face and shoulders visible.

✔ Good lighting with lights from above and at sides. No shadows on face.

Bad Lighting

Good Lighting
